How to fertilize your plants in your Bucket Garden.

In this video, you will learn how to fertilize your plants and when to fertilize your plants.

**Tools:**

- Measuring cups
- Garden Gloves
- Or Rubber gloves

**Material:**

- Water
- Organic fertilizer

**Directions:**

1. Always water your plants before adding fertilizer.
2. After watering, add about  $\frac{1}{2}$  to  $\frac{1}{3}$  cups of organic fertilizer around the bucket.
3. Fertilizer once a month.
  - a. If your plants are in the early stages of growth, fertilizer every 3 weeks for a couple of months, then go back to once a month.
  - b. If your plants are in the later stages of growth, fertilize less,  $\frac{1}{4}$  to  $\frac{1}{2}$  cup.
4. Water lightly again.
